

Web Traffic Report For The City Edition of San Francisco

Includes these domains:

The City Edition, Welders Universe, The Solar Planner, The Mega-Disaster Planner, Human Rights Interactive Network & ChemtrailSafety.com

**Data provided by the server at WestHost.com
using AWStats.**

There are two reports contained here, including an overview followed by a second report that includes a full listing of page counts.

All traffic for the domain home pages are combined by AWStats and appear under a single URL identified as /. Why, you ask? The City Edition uses a dedicated IP address, so AWStats is unable to distinguish between them. However, The Mega-Disaster Planner uses the URL “2012/plan.html”, so you can view the stats for this page.

West Host provides nearly 0% downtime and fast loading of pages, so users never have to wait. All sites are indexed and utilize Google webmaster tools for optimum search engine rankings. (This excludes mobile device page rankings.)

Also note that the URL address provided for each page in the “full listing” section is incomplete, as it doesn’t include the domain name. The City Edition has no control of the report generation and can only provide this PDF version of the raw data. On the bright side, you can be sure that the info hasn’t been tampered with.

If you have any questions or are unable to determine the traffic count for a particular page, please contact Rosemary Regello at rregello@thecityedition.com
